COMPANY PROFILE
2026 EDITION

AUTOMATION SYSTEMS · EST. 2026 · MOMBASA, KENYA

We build the systems that *run* recruitment agencies.

Candidate intake, document compliance, follow-ups and daily reporting
— engineered to run on autopilot, so your agency places more workers
with the same team.

Prepared by

M.A. Salmin

Founder & Systems Architect

More placements.

Less paperwork.

ABOUT THE COMPANY

A specialist, not a generalist.

Naim Automation Systems Co. is a Kenyan automation engineering company serving one market with total focus: **licensed recruitment & staffing agencies**. There are over 1,296 NEA-licensed agencies in Kenya — and almost every one of them runs on paper files, delayed replies and manual follow-ups. We replace that with intelligent systems that work 24 hours a day, in English, Kiswahili and Arabic.

THE FOUNDER

M.A. Salmin

FOUNDER · SYSTEMS ARCHITECT · AUTOMATION
CONSULTANT

A systems engineer specialised in AI-powered business automation. Architect of the full operations system running at Naim Investments Ltd — an accredited Mombasa staffing agency placing Kenyan workers across Saudi Arabia, UAE, Qatar and Kuwait.

- ✦ **Architecture & engineering** of end-to-end agency operations systems
- ✦ **Trilingual automation** — English · Kiswahili · العربية
- ✦ **AI agent systems** — self-learning, 24/7, cloud-hosted
- ✦ **Data compliance** — clean, audit-ready candidate records

Our Promise

Every system we install must do at least one of three things — *save time, save money, or remove mistakes*. If it cannot be measured, we do not sell it.

OUR SYSTEMS

Five systems. One outcome: *more placements.*

01 · The 5-Minute Candidate Response System

Every enquiry — WhatsApp, Facebook, website — answered, qualified and routed within minutes, 24/7, in three languages. Responding within 5 minutes makes an agency up to 10x more likely to win the candidate.

02 · The Document Compliance Engine

Passports, IDs, Good Conduct certificates, medicals, Yellow Fever cards — digitised, checklist-enforced per destination country, and expiry-monitored with alerts *before* a document expires, never after.

03 · The Candidate Journey Autopilot

From registration to departure, every candidate moved along automatically — medical reminders, interview confirmations, visa updates — with a warm, human tone. Drop-offs flagged to your team instantly.

04 · The Dormant Candidate Goldmine

Your old database is unclaimed revenue. We clean, segment and re-engage past candidates and cold enquiries with personalised outreach — recovering placements at zero ad spend.

05 · The Director's Daily Briefing

Every morning at 7:00 AM the director receives the full state of the agency on Telegram — new candidates, pending documents, appointments, overdue tasks. Ask anything, answered in seconds.

✦ The Agency Brain™ — Flagship

All five systems unified into one intelligent operations engine. The director commands it on Telegram; candidates are served on WhatsApp; the whole agency runs awake 24 hours a day. Self-learning — it grows with your business.

FLAGSHIP DEPLOYMENT

Running live at *Naim Investments Ltd*

An accredited staffing & recruiting agency in Mombasa — affiliated with the Ministry of Labour, NEA, KAPEA and KNCCI — placing Kenyan workers across the Gulf. Its daily operations are run by the systems we build.

OUR ENGAGEMENT PROCESS

Clean. Professional. *In writing.*

1

Free Operations Audit

A written report showing exactly where time, candidates and money are leaking. Yours to keep — no obligation.

2

Consultation Call

A scheduled session to walk through the audit and agree the right system for your agency.

3

Quotation & Agreement

Formal itemised quotation and service agreement. 50% deposit to begin, 50% upon completion.

4

Build & Handover

Built, tested and demonstrated live. Your team trained. Delivery in 7–21 business days by scope.

5

Monthly Care & Reports

Hosting, upkeep and support — with a professional monthly report of what your system achieved.

Let's talk about your agency.
