

CURRICULUM VITAE

M.A. Salmin

SYSTEMS ARCHITECT · AUTOMATION CONSULTANT · FOUNDER

hello@naimautomation.com · [phone / WhatsApp] · Mombasa, Kenya
[website] · in/[linkedin] · Languages: English · Kiswahili · Arabic (working)

PROFESSIONAL PROFILE

Founder of Naim Automation Systems Co. and architect of AI-powered operations systems for licensed recruitment agencies. Specialised in transforming manual, paper-driven agency operations into intelligent 24/7 systems — candidate intake, document compliance, follow-up automation and executive reporting — delivered in English, Kiswahili and Arabic. Flagship deployment: the complete operations system of Naim Investments Ltd, an accredited Mombasa staffing agency serving the Gulf labour market.

FLAGSHIP PROJECT

The Agency Brain™ — Naim Investments Ltd, Mombasa

2026

- Architected and engineered the agency's full operations system: candidate pipeline (155+ candidates), document compliance engine, appointment & task automation, and a trilingual communication layer
- Reduced first-response time to candidate enquiries from days to **under 5 minutes**
- Built the Director's Command Center on Telegram — daily 7:00 AM briefings, instant alerts, natural-language queries in three languages
- Implemented data cleanup & audit-ready record keeping aligned with NEA compliance standards

CORE COMPETENCIES

- AI Agent Systems** — autonomous agents, self-learning workflows, 24/7 cloud operation
- Business Process Automation** — speed-to-lead, document processing, follow-up sequences, database reactivation, reporting
- Systems Architecture** — end-to-end design from intake channel to executive dashboard
- Integration Engineering** — WhatsApp Business, Telegram, web systems, CRMs, cloud databases
- Web Engineering** — modern edge-deployed web applications and landing systems
- Data Protection** — practices aligned with the Kenya Data Protection Act, 2019

EXPERIENCE

Founder & Systems Architect — Naim Automation Systems Co.

2026 — Present

Founded a specialist automation company serving Kenya's 1,296 licensed recruitment agencies. Responsible for architecture, engineering, delivery and client success across all systems.

Independent Automation Engineer

Prior

Designed and delivered automation workflows and AI agent systems; built deep practical expertise across autonomous agent frameworks, cloud hosting and business-process engineering.
